MINE CLOSURE 2024

26–28 NOVEMBER 2024 | PERTH, WESTERN AUSTRALIA

The series of International Conferences on Mine Closure is a fixture on the calendars of many mining professionals, providing topical and high quality papers and presentations on a range of topics of immediate interest and relevance. A key feature of the conference series is the diversity of disciplines and expertise that come together to focus on the pressing issues facing the mine closure community globally.

THEMES

At Mine Closure 2024 we are taking a new approach to the conference themes. This year we are focusing the Mine Closure conference within the framework of the UN Sustainable Development Goals (SDGs).

According to the UN, 'The SDGs aim to transform our world. They are a call to action to end poverty and inequality, protect the planet, and ensure that all people enjoy health, justice, and prosperity.' These goals map closely on to what good mine closure should aim for as an outcome and many of our themes in previous conferences map closely to these. To help us look beyond the mines we wish to close, we hope to encourage a broader appreciation of what our industry and conference can achieve on the global stage.

Stakeholders and communities
Closure objectives and criteria
Financing and cost estimation
Relinquishment and legacy management
Landform and engineering design
Surface water and erosion control
Ecosystem reconstruction
Statutory compliance
Contaminant remediation and impact management

Visit acgmineclosure.com/themes to learn more about the connection of mine closure themes to the UN Sustainable Development Goals.

MINE CLOSURE 2024

CO-CHAIRS

Professor Andy Fourie

*Professor of Civil & Mining Engineering and
Program Director – Future Tails*

The University of Western Australia

Professor Mark Tibbett

Professor of Soil Ecology

University of Reading, UK

Previous conferences have been held in:

2023 Reno, USA
2022 Brisbane, Australia
2021 Ulaanbaatar, Mongolia
2019 Perth, Australia
2018 Leipzig, Germany
2016 Perth, Australia
2015 Vancouver, Canada
2014 Johannesburg, South Africa
2013 Cornwall, England
2012 Brisbane, Australia
2011 Alberta, Canada
2010 Vina del Mar, Chile
2009 Perth, Australia
2008 Johannesburg, South Africa
2007 Santiago, Chile
2006 Perth, Australia

ONLINE REPOSITORY OF CONFERENCE PROCEEDINGS

Accessing geomechanical excellence

ACG's Online Repository of Conference Proceedings

There is a wide range of high-quality, technical mine closure papers, freely available to download at the Online Repository of Conference Proceedings.

To view them all, visit papers.acg.uwa.edu.au/mineclosure

Over 688 mine closure
papers freely accessible.

More than 200,000 papers from
previous mine closure
conferences downloaded.

5,000+ Mine Closure
2023 papers
downloaded.

2,569 geomechanics
papers available to
download.

103 Mine Closure 2023
papers available to
download.

Mine Closure 2023 papers
have been downloaded in
53 countries.
